

What is THE LEARNIE™ BOARD ?

- A special lightweight A4 size magnetic white board combined with a set of easily moveable magnetic LEARNIE "learning components" ie brain hemispheres, eyes, ears, hands & feet.
- Effectively displays the results of a Handedness or Dominance Profile.
- An ideal presentation for discussion of the implications for Learning and Teaching.

What is a Dominance Profile ?

- It is the identification, by some form of assessment, which of the two brain hemispheres, eyes, ears, hands and feet are showing as dominating the other.
- Can also be referred to as "Preferred" or "Lead".
- Traditionally for English language speakers, because of the left to right flow, the considered easiest for academic learning is :-

- Left hemisphere.
- Right eye, ear, hand & foot.
- Learners with a mixed or crossed dominance are considered as likely to experience some difficulties in particular aspects of learning.

How do you assess to determine a profile ?

- There are many approaches, systems and schemes that have been developed for this.
- All methods work with THE LEARNIE BOARD.
- You may like to try the approaches used by Carla Hannaford in *The Dominance Factor*.
- Or you may like to attend an *Optimal Brain Organisation (OBO) Course* - after attending the pre-requisite *4 Day Brain® Gym Course*.

Why is a Dominance Profile Important ?

It helps the Teacher or Specialist :-

- Understand the clues as to how the learner is organising their brain function and multi-sensory inputs.
- Explain to the learner why they could be experiencing issues and the opportunities to dialogue around what happens.
- Explain to Parents why their child is experiencing issues and how they could help.
- Consider strategies to :-
 - make the learning situation accommodate the profile - for example :-
 - Where the learner should ideally sit in the classroom.
 - The main multi-sensory inputs necessary to "get to" the learner.
 - On which side a Tutor or paired reading partner should sit.
 - Introduce the learner to ways of adapting their profile.

Who benefits by using THE LEARNIE BOARD?

- Support for Learning Teachers.
 - Speech and Language Specialists.
 - SENCOs.
 - Educational Psychologists.
 - Teachers, F.E. Lecturers, anyone working with Learning Styles.
 - Tutors.
 - Brain Gym® Instructors & Consultants.
- AND BEST OF ALL the LEARNERS LOVE it !!!

The Dominance Factor by Dr. Carla Hannaford can also be purchased from Ladder of Learning. Special Discount when purchased with a LEARNIE BOARD.
